Tales on the Trails

Join us to hike the brand new Story Trail and hear the story of a special honey bee. A new story has been created for the 1 km Self-Guided Trail. The story, written by Frank Glew, *“Melissa’s Magnificent Message”* features a special honey bee that needs your help to make the planet greener. Find out about local bees, and how your family can help them through a presentation by the Sudbury Beekeeper’s Association.
